FINANCIAL REPORT	16

INTRODUCTION

[Faktograf.hr](#) was launched in 2015 as a co-publishing project between the [Croatian Journalists' Association](#) and [Gong](#). Since 2018, Gong is the sole publisher of Faktograf, and the incubation period in this organisation lasted until November 2021.

The Founding Assembly was held in June 2021, by which 10 members of the Faktograf.hr portal established Faktograf - Association for the Informed Public. The new non-profit media organisation took over publishing activities for the portal Faktograf.hr in November 2021.

ORGANISATION MISSION

Faktograf is a non-profit media organisation for the development of good journalism, critical thinking and informed public. Good journalism places things in context, emphasises what is relevant and elaborates what is unclear.

ORGANISATION VISION

To live in a society that shares a factual reality – an informed society is a resilient society.

ASSOCIATION ESTABLISHMENT

Founding Assembly

The Founding Assembly of Faktograf – Association for the Informed Public was held on Wednesday, 30 June 2021.

Ten members of the Faktograf.hr portal editorial board, which was at the time still operating under the Gong association– Jelena Berković, Ana Benačić, Ana Brakus, Sanja Despot, Gabrijela Galić, Petra Gluščić Puljek, Matea Grgurinović, Petar Vidov, Melita Vrsaljko and Ivana Živković – decided to establish a separate non-profit media organisation with the goal of ending the incubation period in Gong and taking control of publishing the Faktograf.hr portal.

The association's Statute, which defines the goals of the organisation, was adopted at the Founding Assembly.

The Association has been founded for the purpose of promoting, developing and advancing professional and ethical journalism in the public space, fact-checking and combating disinformation in the public space, verifying claims made in the public space by digital media and social media users, ensuring the public's rights to information about issues from the spheres of politics, culture, social science, civil society, independence of the journalist profession.

The association's bodies are the General Assembly, the executive director, and the deputy executive director.

The General Assembly selected Ana Brakus as the general director and Petar Vidov as deputy executive director. Sanja Despot was selected as the association's liquidator.

The Publishing Council was also established. The role of the Publishing Council is defined by the association's Statute, and it comprises of the executive director and the workers' representative, Gabrijela Galić.

Autumn General Assembly

On Tuesday, 19 October 2021, the second General Assembly was held in Zagreb, on which the Agreement between the Gong association and the Faktograf association was adopted. The Agreement defines the principles of future cooperation, as well as the transfer of publishing rights for the Faktograf.hr portal. In addition, the decision on accepting a donation from the Gong association was adopted.

The following documents were also adopted at the General Assembly:

- Work plan and the 2021 Financial plan
- Work plan and the 2022 Financial plan
- Program foundation of the Faktograf.hr internet portal

The Editorial Statute was also adopted at the autumn General Assembly, governing the relationship between the publisher and the editor-in-chief, i.e., the editor-in-chief and the journalists. The Editorial Statute is signed by Gabrijela Galić as the representative of workers and Ana Brakus as the executive director.

FAKTOGRAF.HR

Faktograf.hr is a non-profit medium whose publisher is Faktograf - Association for the Informed Public. We are the only Croatian medium specialised in fact-checking - checking of factual accuracy of claims made in public space - operating since 2015. Faktograf is a member of the International Fact-Checking Network (IFCN), an international network of organisations dedicated to fact-checking.

The Faktograf journalist team in 2021 consisted of journalists Ana Benačić, Gabrijela Galić, Matea Grgurinović and Melita Vrsaljko and editors Petar Vidov (editor-in-chief), Sanja Despot (deputy editor) and Ivana Živković (communications' editor). Ana Brakus acted as executive editor until she assumed the role of the media organisation executive director.

In accordance with the Programme Foundation, Faktograf.hr publishes exclusively authored texts and other forms of media content.

In the [“Ocjena točnosti” \(Accuracy Assessment\)](#) column, the claims made by politicians and political actors whose accuracy can be measured by objective facts are assessed. In the [“Razotkriveno” \(Exposed\)](#) column, the accuracy of claims made in the public space by digital media and social media users are assessed in collaboration with Meta, i.e. Facebook, through their [Third Party Fact-Checker programme](#). In the [“Pod povećalom” \(In Focus\)](#) column, we provide in-depth analyses of important political and social topics. The [“Pitali ste” \(You Asked\)](#) column is used for texts made on the basis of questions asked by our readers.

Faktograf.hr in numbers

In 2021, Faktograf.hr published **523** texts and had almost 3 million unique website views. **130** texts were published in the “Pod povećalom” column and over **70** in the “Ocjena točnosti” column. More than **300** texts were published in the “Razotkriveno” column.

494 readers contacted Faktograf.hr in 2021 with a request for fact-checking publications and statements. The percentage of solved inquiries in 2021 is **40** percent. In other words, **199** inquiries by readers were answered in the form of an article.

During 2021 we also launched [F-zin](#), Faktograf's newsletter. The newsletter is sent once a month to email addresses of readers who wish to receive this form of authored content by the Faktograf.hr portal. Each month there is a separate topic, and each topic is provided with a wider picture. Since June 2021 when the editorial was published, until the end of 2021, more than **650** people subscribed to F-zin.

During the entire duration of the COVID-19 pandemics, Faktograf.hr has been operating the [Live blog Disinformation on the coronavirus](#), in order to provide all our readers with a single overview of COVID-19 disinformation. Only in 2021, **241** texts were published in the Live blog: Disinformation on the coronavirus.

Bearing in mind that the listed figures do not provide a whole picture of the overall social impact Faktograf has, during the 2021 an analysis was conducted for the purpose of creating a theory of change and implementing the impact assessment of the Faktograf.hr non-profit medium.

Faktograf's stories - a selection of authors

Ana Benačić

[Hrvatski matematičari zgrozili uredništvo IEEE Accessa manipulacijama popisom žrtava Jasenovca](#)

Neven Elezović and Nikola Banić from the Faculty of Electrical Engineering and Computing claim they have proved that the list of the victims of the Ustaša concentration camp Jasenovac was fabricated. This is not correct.

"The coldest of all sciences" - mathematics - can also be used for lying and manipulating,
says Benačić.

The text was read by more than 10,000 readers and was shared by the [Historiografija.hr](#) portal which is aimed at establishing better communication between Croatian historians and scientists in general.

Matea Grgurinović

[Mirovina bez mira: Kako se iskorištava umirovljenike u Hrvatskoj](#)

More and more pensioners in Croatia have to work in order to survive. Two pensioners shared their experiences with the labour market with us.

In her article, Grgurinović covered the topic of old-age poverty, i.e. stories of people who have to work, although they receive pension. The article was written in cooperation with the Goethe-Institute and was also published in part in the 6th issue of F-zin under the title [Život u penziji: "Ja zapravo zbrajam godinama"](#), published in late November 2021. The text was shared in [other media](#) as well, and was read by more than 25,000 people on the Faktograf portal alone.

Melita Vrsaljko

[Zrmanji prijeti zagađenje smećem iz cijele Zadarske županije](#)

HDZ (Croatian Democratic Union) authorities in Obrovac decided that garbage from the entire Zadar County can be disposed at the former irregular landfill next to the Zrmanja drinking water pump site.

I am reporting of the problem in a way that local media probably could not due to the influence of local politicians on the media. I am also describing how environment protection means nothing to local politicians and entrepreneurs close to them, who see profit above public interest, as well as how there is consistent negligence in Croatia regarding environment protection, says Vrsaljko.

Petar Vidov

[Nema dokaza da Covid potvrde doprinose širenju epidemije](#)

Several obscure portals unfoundedly claim that COVID certificates contribute to spreading the epidemics. They cite Facebook posts by Gordan Lauc and Nenad Bakić.

The most dangerous manipulators are those who know how to use the absence of concrete data in order to spread lies by which they promote their interests, says Vidov.

Sanja Despot

[Od uvođenja mjere roditelj odgojitelj porastao je broj trećerođene djece, ali uz previsoku cijenu za gradski budžet](#)

Since 2016, the number of children born as the third or fourth child in a family has been growing for about 300 a year.

The questions whether the parent-educator measure has improved the demographic picture in Zagreb is still open to debate. It is still one of the central issues that can jeopardise the city budget as envisaged by the new authorities, says Despot.

Faktograf also reported on the influence of the described measure on the city budget in the article [Donošenje prvog Tomaševićevog proračuna obilježeno revidiranjem odluke o roditeljima odgojiteljima](#), published in the “Pitali ste” column.

Gabrijela Galić

[Nestranački gradonačelnici i načelnici vladat će u 130 gradova i općina](#)

The number of independent candidates at local elections continues to grow. They have won 41 more seats than four years ago.

In 2021, Faktograf.hr provided a detailed analysis of the local election results. We analysed the election results using open-format data obtained from the [State Electoral Commission](#). For the purpose of easier analysis of collected data, we created a [search engine](#) which we opened to all our readers, just like after the first round of elections. Using the search engine, the portal [Mirovina.hr](#) [investigated](#) coalitions made by pensioners’ parties.

Ivana Živković

[F-zin #3: Vruća točka planete](#)

The Mediterranean region, which includes Croatia, has been recognised as a climatological “hotspot”.

Croatia is among the three European countries with the largest portion of damage caused by extreme weather and climate events in relation to GDP. This raises numerous questions, including what future we have and what we are doing as a society to stop this imminent danger.

So far, as a society, we are doing very little - therefore it is crucial to report about the climate crisis, says Živković.

Threats and attacks

In 2021, Faktograf reported 21 cases of harassment, violent or death threats to the Zagreb Police Administration. Here are some of them:

I can swear with my child, when I meet you, you will remember that for the rest of your life. it's a big problem to clean your shoe when you step into shit. do you have some advice

Faktograf, the axe awaits you. Axing, not vaxxing.

Satans. You'll be dead soon get ready for death communist shits fuuuuuck your whoooooore mother

DDos attack

In December 2021 a three-day attack on the Faktograf.hr portal was organised, during which 100 million attempts to access the site were recorded. A DDos attack (Denial of Service) is an attack on the computer service whose goal is to disable its users to use it.

Umbrella journalism organisations in Croatia - Croatian Journalists' Association and the [Trade Union of Croatian Journalists](#) expressed their [support](#) to Faktograf. Faktograf also received support from the regional [SEE Check network](#), as well as the [European Federation of Journalists](#). [The Media Freedom Rapid Response](#) also reported about the attacks.

The event was reported to the police, but the people who ordered the attack were not found.

Faktograf.hr in other media

Faktograf's texts were shared in numerous media.

For example, the portal Index.hr shared the text in which we assigned the "incorrect" grade to the numerous statements made by the MEP Ivan Vilibor Sinčić. The text was published under the title [Faktograf: Sinčić širi laži o koroni](#).

In their text [Kako je počela ova užasna, najprljavija kampanja u povijesti](#), Telegram.hr relied on the statements of the Faktograf.hr's editor-in-chief Petar Vidov. For a [report](#) by the RTL television, Vidov also talked about disinformation and manipulations in pre-election campaigns.

The editor-in-chief also gave statements for the report [Šta je dovelo do ekspanzije dezinformacija i lažnih vijesti u Hrvatskoj?](#) by Al Jazeera Balkans.

The text [Mentalno zdravlje u doba pandemije](#) by our journalist, Melita Vrsaljko, was shared by the University Psychiatric Hospital Vrapče on their Facebook [page](#).

Journalist Gabrijela Galić was a guest on the [Točka na tjedan](#) show on N1 television, where she spoke of the issue of the government's debt to wholesale pharmacies.

In their text, [Dekan medicinskog faksa u Puli rado širi teorije zavjere o koroni, cjepivu i Billu Gatesu. Pazite, dekan](#), Telegram.hr reflected on the series of false claims made by Krešimir Pavelić, which were exposed by Faktograf journalist Ana Benačić. In their text, [Nakon što je zagovarao ukidanje cijepljenja, pa čak i uhićenja onih koji ga propagiraju, dekan iz Pule promptno smijenjen! Doduše,](#)

[pokazalo se da fakultet na kojem radi, praktički, ne postoji](#), Slobodna Dalmacija also cited Faktograf's reports.

Comment by Tomislav Klauški was published on the portal 24 sata, entitled [Antivaxerska rulja počela otvoreno jurišati na liječnike i novinare. Uz podršku politike](#), problematising the attacks on Faktograf's editorial board.

Faktograf executive director, Ana Brakus, also gave statements for the [European Federation of Journalists, Factually](#) - a newsletter by the Poynter Institute where IFCN operates, and other. Likewise, she participated at the panel discussion entitled [Ekspanzija dezinformacija u vrijeme covid-19 pandemije](#) organised by the Gong association.

NETWORKING AND ADVOCACY

For the purpose of quality sharing of knowledge and experiences with colleagues who also deal with fact-checking and developing an ecosystem for good journalism, Faktograf is also active in numerous networks and initiatives on a national, regional, European and global level.

National networks and public policies

In November 2021, the Faktograf association as a partner organization, together with [Kurziv–Platform for Matters of Culture, Media and Society](#) and [Association for the Promotion of Media Culture, Art and Tolerance “Lupiga – the World Seen Through the Common Eyes”](#) submitted a project proposal to the [Active Citizens’ Fund](#). The project’s key activity is establishing a Federation of Non-Profit Media Publishing Associations as a representative and advocating body that would provide support to its members in the process of submitting and implementing projects on an international and European level and that would represent them in the processes of advocating adequate public policies.

Regional networking – the SEE Check network

[SEE Check](#) is a network of six organizations from five South-eastern Europe countries that work together on promoting responsible journalism, improving the quality of media literacy and fighting misinformation and disinformation in the public space.

The network was unofficially established in March 2020 and currently consists of the portals [Raskrinkavanje.ba](#), [Raskrinkavanje.me](#), [Faktograf.hr](#), [Raskrikavanje.rs](#), [Fakenews Tragač](#) and [Razkrinkavanje.si](#).

Faktograf’s senior advisor, Jelena Berković, works as the network’s program coordinator. The decision followed after the first SEE Check network conference was held in September 2021 on the island of Hvar, for the first time in person since the start of the pandemics.

Faktograf’s and SEE Check’s (video) stories

The SEE Check network has from its very beginning been operating as a virtual regional editorial board focused on a regional approach to topics and on common analyses, with the participation of several editorial boards.

Regional analyses of this virtual editorial board are published on the SEE Check network’s [portal](#) in English. In addition, the most significant analyses of each individual portal that is part of the SEE Check network are regularly translated and published.

In October 2021, member organizations of the SEE Check network from Bosnia and Herzegovina, Montenegro, Serbia and Croatia created [a kind of a “greatest hits list”](#) of regional disinformators; a common analysis in which we listed the doctors and scientists whose public activities contribute to spreading disinformation related to COVID-19 and therefore undermine the fight against this dangerous disease.

One of the most bizarre claims checked by Faktograf was exposed in collaboration with Raskrinkavanje.ba. [Iz FFP2 maske neće izaći larve ako je lagano pečete 90 minuta](#) is a text accompanied by a [video](#) of the experiment.

In the first episode of [PodFact](#), SEE Check network's podcats, in January 2021, Faktograf published the episode entitled [Gubi li zdravstvo bitku s dezinformatorima?](#). The SEE Check network published a total of 7 episodes of PodFact.

POINT 9.0 conference

The [POINT](#) conference (Politička odgovornost i nove tehnologije) is the largest conference of this type in South-Eastern Europe (SEE) and it aims to be a platform for civil society which encourages the use of new technologies.

Faktograf's communication editor Ivana Živković spoke on the panel [Renaissance of Theories of Conspiracy and Conspiracy Influencers](#). Senior advisor Jelena Berković moderated the panel entitled [Big Tech Getting Bigger](#).

Public advocacy and networking in Europe

In coordination with SEE Check, Faktograf provided assistance to the initiation of the [European Fact-Checking Standards Network](#) in a consortium consisting of fact-checking organizations Maldita.es, Agence France-Presse, Pagella Politica, Correctiv, Demagog and EU Disinfo Lab. The goal is to set up high standards of openness, transparency, and participation during the shaping of the Professional Integrity Code for European fact-checking organizations and the establishing of the European network in late 2022.

Having in mind that the regulation and co-regulation of digital spaces is performed within the European Union, with one of the focuses being also the prevention of spreading disinformation by fact-checking, Faktograf has actively monitored and observed some of these processes.

Faktograf registered its interests in public policies related to misinformation and disinformation (Digital Services Act, Code of Practice on Disinformation), encouraging environment for sustainable journalism in the interest of the public (European Democracy Action Plan, Media Freedom Act, Anti-SLAPP Directive, European standards of the Journalism Trust Initiative) and business models for sustainable journalism in the interest of the public (Data Governance Act, Artificial Intelligence Act, Media and Audiovisual Action Plan) with the EU [Transparency Register](#) (ID 521295644592-54).

Faktograf's senior advisor Jelena Berković participated in the process of shaping the strengthened Code of Practice on Disinformation as an observer, representing Faktograf and the SEE Check network. As one of the first signatories of the strengthened Code, Faktograf will also participate in the working group that will monitor the implementation of the Code and its further strengthening.

Global networking and advocacy

Faktograf continued its active participation in the work of the International Fact-Checking Network (IFCN), an international network of organisations dedicated to fact-checking.

For the fifth consecutive year, in March 2021 Faktograf received a [positive grade](#) in the IFCN's verification process, which is a confirmation of our upholding of high standards prescribed by the [IFCN's Code of Principles](#).

Since July 2021, as a Faktograf representative, Ana Brakus has been participating in the IFCN’s “Anti-harassment” working group, founded with the goal of addressing and combating the threats and harassment to which fact-checkers around the world are exposed.

World’s largest fact-checking conference, [Global Fact 8](#), was held in October 2021. Just like in 2020, the conference was online due to measures for combating the coronavirus.

Jelena Berković spoke on the panel [Fighting disinformation through public policy: European fact-checkers finding their voice](#), and Ana Brakus participated at the panel [Connecting across borders: Building regional networks of fact-checkers](#).

BASIC AND ECONOMIC ACTIVITY

Association’s projects

In 2021, the Faktograf association implemented the following contracts for implementation projects financed by grants:

European Commission (Connect/2020/5464403)	Pro-fact: Research, education, fact-check and debunk COVID-19 related disinformation narratives in Croatia (Faktograf as a member of the consortium)	11/2021	03/2023
Balkan Trust for Democracy	Fostering resilience to disinformation through the fact-checking (via Center for Democratic Transition as the lead)	12/2021	05/2022
Balkan Trust for Democracy	Community Building for Fact-checking in the Pandemic (via Gong as the publisher at the time)	02/2021	12/2021
Agency for Electronic Media	Fund for the Promotion of Pluralism and Diversity of Electronic Media - We’re holding you accountable!	03/2021	09/2021
National Endowment for Democracy	Strengthening government accountability and fighting disinformation through regional cooperation	7/2021	6/2022

Economic activity

Faktograf.hr has been participating in the work of Meta’s Third Party Fact-Checking programme since April 2019. Its goal is to fight misinformation on Facebook and Instagram. Faktograf.hr continued cooperation in the programme in 2021 as well.

From November 2021 to January 2022, Faktograf participated in Facebook's [Accelerator programme](#) aimed at raising the level of capacity of fact-checking organizations.

FINANCIAL REPORT

In 2021, Faktograf - Association for the Informed Public generated a total revenue of HRK 1,068,550 and a total expenditure of HRK 324,536, which resulted in a total (gross) excess revenue in the amount of HRK 744,014.

50.08% of total revenue consisted of donation contributions in the total amount of HRK 535,195, and 48.82% of commercial activities in the total amount of HRK 532,355. The remaining revenue in the amount of HRK 1,000, i.e. 0.09%, was obtained from membership fees.

Out of the total donation amount, HRK 500,000 refers to Gong's donation in accordance with the signed Agreement (adopted at General Assemblies of both associations in October 2021), which defines the principles of future cooperation, as well as the transfer of publishing of the Faktograf.hr portal.

Out of the total expenses, 72.84%, i.e. HRK 236,395 are revenues for workers, consisting of net salaries, salaries' contributions and other workers' expenses. Material expenses in the amount of HRK 86,806, i.e. 26.75%, were mostly (HRK 36,330) costs for performing activities, costs of services were HRK 31,313 and material and energy costs were HRK 14,123.

Other expenses refer to depreciation (HRK 733) and financial expenses (HRK 602).

Considering the excess revenue achieved through performing of commercial activity, an income tax liability was determined in the amount of HRK 37,436, which brought the excess revenue available in 2022 to the net amount of HRK 706,578. HRK 369,654 out of this amount is revenue excess from basic activity, and HRK 336,942 from commercial activity.

With respect to cash flow, the total cash inflow to the association's accounts in 2021 amounted HRK 506,713, and outflow amounted 163,276. Consequently, the account balance on 31 December 2021 was HRK 343,437.
